

sage X3

BULK JOURNAL UPLOAD

This is ideal for organisations that need to process reallocations, or who prepare journals on spreadsheets and then manually capture these into Sage X3. This also adds immense value when you need to import data from any third-party system and need to quickly and easily change the layout of the file at a user level.

THE RISKS:

If your staff are manually capturing journal data into **Sage X3** it increases risk into your business due to potential human error, not to mention the time wasted and costs of duplicating work.

1. Manual task
2. Time-consuming
3. Error-prone
4. High risk

THE SOLUTION: T3T's Bulk Journal Upload

The **T3T** Bulk Journal Upload function allows you to bulk upload general ledger journals, saving you time and reducing human error.

BENEFITS OF THE BULK JOURNAL UPLOAD:

1. Role-based functionality
2. Excel-based
3. Interfaces with any system
4. Multiple journals can be uploaded
5. Validates columns in the upload file
6. Intelligently interprets and auto creates journals in **Sage X3**
7. Used for importing salaries, audit adjustments, etc
8. Bulk uploads spreadsheets used to determine reallocations
